

Essex Win Two Out of Last Three Games

At Cynthiana last Thursday the Mt. Sterling Essex took the league leaders into camp by a score of 3 to 1. "Hick" Ferrell was in the box for the locals, and although he was touched up for nine hits, he was absolutely invincible when hits meant runs. The game was well played and aside from the pitching of Ferrell the playing of Blake at third was a feature. The box score follows:

Saturday's Game

The mighty Powell, Winchester's pitching ace, met his downfall at the local park Saturday afternoon when he was trounced to the count of 10 to 4. He was sent to the shower in the eighth and Lowry was substituted. Winchester started off with a rush, scoring two runs in the second and one in the third. After this Ferrell was substituted for Hester, who held the visitors to four hits during the rest of the game. The features were the playing of Blake, Wilbers, Potts and the uniform hitting of the entire team. The box score follows:

Whitewashed Sunday

Winchester was here for revenge Sunday and they surely got it, defeating our boys by the score of 4 to 0. The game was a pitchers' battle from start to finish between Hardie and Harrison, with the former being much more effective in the platoon. Winchester scored first in the fourth

Schools Open With Splendid Attendance

The Mt. Sterling city schools opened yesterday with an enrollment of 692 pupils, the largest first day attendance in the history of the school. Prof. Babb, under whose supervision the Mt. Sterling institution of learning has made rapid advancement in every way, has secured a splendid faculty of trained teachers for this year and our schools are considered second to none in the state.

In the first grade yesterday there were 64 pupils; in the second grade, 59; third grade, 70; fourth grade, 57; fifth grade, 70; sixth grade, 55; seventh grade, 39; eighth grade, 33, making a total of 447 grammar school students. In the freshman class are 57 students; sophomore, 41; junior, 32, and senior, 15, a total of 145 in the high school. Prof. Babb expects others to come in both grammar and high schools before the end of the week.

Prof. J. W. Muir, of the colored schools, reports an unusually large attendance, with 110 pupils in the grades and eighth high school students.

Inning on an error by Harrison and two wild throws from the box, one toward first and the other toward the home plate. He presented the tailenders with this tally "unassisted." In the fifth two hits, coupled with a base on balls, gave Winchester two more and in the ninth a base on balls, a hit and an error gave them their final tally. The hitting of Hardie and the fielding of Coyle featured for the visitors. The box score follows:

Notes of the Game

It looks like now the team that wins the pennant is going to have to beat Cynthiana, as the Harrison county outfit is certainly playing SOME ball. This outfit will be the attraction at the local park Saturday and Sunday and the Essex are determined to take both contests.

The game scheduled for Monday in this city with Paris was postponed on account of wet grounds, and will be played at a later date, possibly next week.

The two games played in this league Labor Day were sure nice exhibitions, Cynthiana defeating Winchester 1 to 0, while Maysville "whipped" Lexington to the count of 2 to 0.

Our next game is with Paris in the Bourbon county capital Thursday and a large crowd of boosters is expected to be on hand.

Ferrell is certainly pitching some ball and is undoubtedly the BEST in this circuit.

Blake is playing a great game at third and also seems to have found his batting eye, getting three hits in Saturday's contest and stealing three

ARMENIAN NOBLEWOMAN, NEAR EAST WAR VICTIM, TO SPEAK AT COURT HOUSE NEXT FRIDAY EVENING

LADY ANNE AZGAPATIAN

Lady Anne Azgapatian, wife of an Armenian general who served with the czar's army in the Caucasus during the war, will speak at the court house on Friday evening at 7:30 o'clock in behalf of the Near East Relief, the American organization that is caring for thousands of war and starvation-made orphans and other sufferers in the strife-torn districts of the Levant. She has been speaking for the relief organization throughout the country since her return to the United States.

Lady Azgapatian has one of the most thrilling tales to tell that has ever come out of those turbulent regions overseas where American charity in the past three years has saved hundreds of thousands of lives and spent approximately \$60,000,000 in salvaging the remnants of persecuted, scattered races.

When the war broke out Lady Azgapatian closed her house in New York and, together with her husband, General Azgapatian, and several hundred Armenian volunteers went from New York to Petrograd, enlisting there with the Imperial Russian Red Cross Society, and serving for two years with the field hospital units attached to the army of the Caucasus under the Grand Duke Nicholas Nikolaevitch.

When Russia collapsed and the Bolsheviks came into power, loyal adherents of the old regime were forced to flee the country. Lady Azgapatian and her husband found their escape cut off in every direction save toward the north and it was from Archangel, the Arctic port, that she and the general and their tiny baby were enabled to get out of the country and after 22 days crossing by way of Iceland, returned to America.

So difficult was it to get nurses in the war zone where Lady Azgapatian was serving, that she was obliged to work in the hospitals even to the night her little daughter was born. When the child was three

months old, she was taken to the United States.

Ritter is showing much improvement with the stick and is also playing a splendid game at second.

Klopp is doing some nice work behind the bat and he makes the opposing baserunners stick close to their base. He is also a good hitter and swats the old pill every time up.

Wilbers and Potts continue to play a wonderful game both in the field and at the bat, and we don't believe there are two better players in the league in their position than these two.

Temporary Injunction Issued Against Crafts

Attorney General Harry M. Daugherty in the district federal court at noon Friday obtained from Judge J. H. Wilkerson, Chicago, the most sweeping temporary injunction against labor unions ever issued by a federal court. The attorney general was accompanied by Blackburn Estline, assistant solicitor general, and a swarm of other assistants from the Washington office.

The injunction is directed against the six shopercrafts now involved in a life and death struggle with the railroads. The temporary injunction makes it a punishable offense to carry on a strike, to support the strikers, which incidentally means to collect union dues and pay the strike benefits or to obstruct railroad transportation in any way.

It restrains shopmen from "interfering with the repair, inspection and operation of trains, locomotives and cars."

It restrains the shopmen and others from "conspiring or agreeing with other organizations to obstruct transportation."

The open shop is endorsed and supported. The document restrains shopmen from attending public mass meetings, jeers humiliating epithets, taunts or threats are barred. It restrains the shopmen from giving or causing newspaper interviews to be published.

Excerpts from the attorney general's plea follows:

"I will use the power of the government of the United States, within my control, to prevent the labor unions of the country from destroying the open shop."

"No union or combination of unions can, under our laws, dictate to the American people."

"No labor leader or capitalistic leader no organization or association of any kind will be permitted by the government of the United States to laugh in the frozen faces of a famishing people, without prompt prosecution and proper punishment."

The attorney general described some of the general effects of the strike today. "This department had received urgent requests for no less than 40,000 deputy marshals to keep down the strike disorder. Already some 5,500 marshals have been so assigned, and in addition special service agents of the department have taken up similar work throughout the country."

"The cost of this service in eight weeks has been more than \$1,000,000."

"In California alone more than \$75,000,000 worth of fruit and products have already been destroyed because of failure of transportation systems to move the crops."

"In Somerset, Ky., 25,000 cars of bituminous coal are congested in the railroad yards. Vandals had hampered with more than 500 cars there."

"Fifty per cent of the engines of the nation's railroads have been rendered useless by lawless activities since the strike began."

"The Chicago & Alton railroad has been forced into receivership by the drain upon its resources caused by the strike."

"A thousand mail trains have been discontinued; thousands of loaded cars have been held on sidetracks for weeks; thousands of locomotives stand idle in the yards, numerous industrial plants throughout the country are suspended for want of fuel and material and thousands of workmen are deprived of an opportunity to support their families, all as a result of the acts of the defendants."

The men and the organizations against which the injunction is directed are the entire railway employees department of the American Federation of Labor and 123 subsidiaries.

After declaring that the railway labor board was an agency of the

government, the attorney general described the revolt of the 400,000 shopmen on July 1 and refusal to abide by decisions of the board. While declaring himself neutral as regards unions, he asserted that when unions seek to dominate the American public and deprive the people of the United States of their necessities, it was high time that they be destroyed.
